

08:45

Welcoming remarks

09:00

SESSION 1: Quality beyond technique

- Optimizing bowel preparation in our endoscopy units
- Sedation in colonoscopy: quality and safety
- Patient experience – the forgotten performance measure

10:00

SESSION 2: Conference - A national endoscopy registry – the NED project example

10:30

POSTER SESSION 1

10:45 Coffee Break

11:15

SESSION 3: Identification of colorectal pathology

- Strategies to improve adenoma detection rates – the scientific evidence in 2021 and how to apply it
- Defining new target standards for adenoma and polyp detection rates
- Quality in IBD endoscopy – defining quality performance measures

12:15

SESSION 4: Advanced imaging in colonoscopy

- Advanced imaging for characterization of colorectal polyps – the “resect & discard” and “diagnose & leave” strategies
- Advanced imaging for characterization of early colorectal cancer – defining new frontiers between endoscopic and surgical resection
- Advanced imaging in IBD

13:15 Lunch break

14:30

SESSION 5: Conference - Artificial intelligence for colorectal polyp detection (Fujifilm conference)

15:00

SESSION 6: Management of pathology and complications

- Appropriate polypectomy technique
- Cold EMR
- How to manage colonic perforations

16:00

POSTER SESSION 2

16:15 Coffee Break

16:45

SESSION 7: Implementing and auditing quality (ESGE session)

- Quality of colonoscopy across Europe
- How to implement a national quality programme
- How to audit and improve quality in our endoscopy units

17:45

SESSION 8: Quizz
